

A photograph of a coal power plant with two tall smokestacks emitting white smoke into a blue sky with scattered clouds. In the foreground, there is a large, dark pile of coal. The text 'Coal Energy in Virginia' is overlaid on the image in a large, light blue font.

# Coal Energy in Virginia

**A discussion about the economic, environmental, and human effects of coal in Virginia, from mining operations to the power plant and beyond.**

**7:00pm Thursday Nov 1, 2007  
GW University, Virginia Campus  
Rm 101, 20101 Academic Way  
Ashburn, VA 20147**

**Featuring Hannah Morgan, Southern Appalachian Mountain Stewards. Includes a multimedia presentation on mountaintop removal coal mining and proposed new coal-fired power plants in Virginia. Sponsored by Loudoun County Committee for a Sustainable Society ([www.lccss.org](http://www.lccss.org)) and Chesapeake Climate Action Network ([www.chesapeakeclimate.org](http://www.chesapeakeclimate.org)). This event is free to the public.**
